ahmed\_abdallah1@med.sohag.edu.eg

## Current Job

**Professor of Ophthalmology**, Sohag Faculty of Medicine, Sohag University, Sohag, Egypt.

## Previous Jobs

- **Resident of Ophthalmology**, Assiut University Hospital from **1987-1990**.
- **Specialist of Ophthalmology**, National Guard Hospital, Saudi Arabia, from **1991-1993**.
- **Assistant Lecturer of Ophthalmology**, Assiut University Hospital, **1993**.
- **Assistant Lecturer of Ophthalmology**, Sohag University Hospital, **1993 - 1995**.
- **Fellow** in Wills Eye Hospital, Philadelphia, USA, from **1995-1997**.
- **Lecturer of Ophthalmology**, Sohag Faculty of Medicine, Sohag University, Sohag, Egypt, from **1998 - 2001**.
- **Consultant of Ophthalmology**, Yanbu National Hospital, Yanbu, Saudi Arabia from **2001 - 2003**.
- **Assistant Professor of ophthalmology**, Sohag faculty of Medicine **2003**
- **Consultant of Ophthalmology**, Armed Forces Hospital, Saudi Arabia, from **2003 - 2007**.

- **Professor of Ophthalmology**, Sohag Faculty of Medicine, Sohag University **2008**.
- **Head of Ophthalmic Department from 8/2014 – 8/2016**

### **Educational & Medical Qualifications**

- **M.B.B.Ch (1985): Assiut Faculty of Medicine, Assiut University (Very good with Honour).**
- **Master (M.Sc) degree in Ophthalmology (1990): Assiut Faculty of Medicine, Assiut University (Very good).**
- **Fellowship in Ophthalmic Oncology, Wills Eye Hospital, Philadelphia, USA (1995-1997)**
- **Doctorate (MD) degree in Ophthalmology (1998): Sohag Faculty of Medicine.**

### **Scientific Meetings, Presentations & Conferences**

- **Annual meetings of Egyptian Ophthalmology society (EOS) between 1987 - 2018.**
- **Annual meetings of Saudi Ophthalmology society (SOS) 2004 - 2007.**
- **American Academy of Ophthalmology 1995 & 1996..**
- **Wills Eye Hospital Conference (Cornea update), October, 1995.**
- **Wills Eye Hospital Conference (Oncology update "Iris & Fundus Diseases"), November, 1995.**
- **Wills Eye Hospital Conference (Retina update" Vascular Diseases"), December, 1995.**
- **Wills Eye Hospital Conference (Oculoplastic update"Eyelid & Lacrimal Reconstruction"), December, 1995.**
- **Wills Eye Hospital Conference ( Pediatric Ophthalmology update), January, 1996.**
- **Annual Wills Eye Hospital Conference March 14-16, 1996.**
- **Wills Eye Hospital Conference (Oculoplastic update"Cosmetic Eyelid Surgery"), April, 1996.**
- **Wills Eye Hospital Conference (Neuro-ophthalmology update), April, 1996.**
- **Wills Eye Hospital Conference (Cornea update) May, 1996.**
- **Wills Eye Hospital Conference (Refractive Surgery Course) May, 1996.**
- **Wills Eye Hospital Conference (Retina-Oncology update"Retinal Tumors"), September, 1996.**
- **Wills Eye Hospital Conference (Orbital update), October, 1996.**

- **Wills Eye Hospital** Conference (Update on Intraocular Inflammation & Tumors), November, 1996.
- **Wills Eye Hospital** Conference (Eyelid & Lacrimal Update), November, 1996.

### **Ophthalmic Thesis**

- **M.Sc. Thesis (1990):** Visual acuity & causes of Visual Impairment in primary & preparatory school children In Assiut.
- **MD. Thesis (1997):** Management of orbital lesions in children

### **Surgical Experience**

- **Cataract surgery**
- **Glaucoma surgery**
- **Pediatric eye surgery** ( Pediatric cataract, congenital glaucoma, squint, Ptosis)
- **Corneal Refractive surgery** ( LASIK, PRK & CXL)

### **Publications in Medical Journals & Supervision on Master & MD Thesis**

1. **A severe form of Crouzon's Disease** (Abdallah AM & Nelson LB). *Journal of Pediat Ophthalmol & Strabismus*; 35 (4): 230-231, **1998**.
2. **Eyelid and Canthal reconstruction after excision of eyelid tumors** (*Bull Ophth Soc J, Egypt, 1999*).
3. **Visual field loss with capillary non-perfusion in pre-proliferative and proliferative diabetic retinopathy** (*Bull Ophth Soc J, Egypt, 1999*).
4. **Refractive and corneal topographic changes post-strabismus surgery** (*Bull Ophth Soc J, Egypt, 2000*).
5. **Combined trabeculotomy-trabeculectomy procedure compared with primary trabeculotomy or trabeculectomy for congenital glaucoma** (*Bull Ophth Soc J, Egypt, 2000*)
6. **Ciliary sulcus reconstruction for posterior chamber intraocular lens implantation in the absence of intact posterior capsule** (*Bull Ophth Soc J, Egypt, 2000*)
7. **Evaluation of the efficacy of topical Mitomycin C in treatment of conjunctival and corneal dysplasia.** (*Bull Ophth Soc J, Egypt, 2000*).
8. **Saving of the contralateral eye in Patients with Unilateral Retinal Vein Occlusion.** (*Bull Ophth Soc J, Egypt, 2000*).

- 9. The role of chemoreduction among recent treatment modalities for intraocular retinoblastoma** (*Bull Ophth Soc J, Egypt, 2001*).
- 10. Pregnancy and progression of diabetic retinopathy** (*South Valley Medical Journal, 2002*).
- 11. Tunnel Trabeculectomy: A modified procedure for chronic glaucoma** (*Bull Ophth Soc J, Egypt, 2003*).
- 12. Fine-needle aspiration biopsy for retinoblastoma: Is it safe or hazardous?** (*Saudi J Ophthalmol 2003*).
- 13. Intraocular retinoblastoma initially misdiagnosed as primary orbital cellulitis: A case report** (*Saudi J Ophthalmol 2003*).
- 14. Role of the Ophthalmologist in the management of neurofibromatosis: A 3-year-study with review of literature** (*Bull Ophth Soc J, Egypt, 2004*).
- 15. Cataract Extraction with IOL Implantation in Eyes with Successful Filtering Bleb** (*Bull Ophth Soc J, Egypt, 2004*).
- 16. Sinus Rhabdomyosarcoma invading the orbit in an adult** (*Saudi J Ophthalmol 2004*).
- 17. Extraocular Retinoblastoma: How to Avoid and How to Manage?** (*Bull Ophth Soc J, Egypt, 2004*).
- 18. Eye malignancies in Geriatric Patients: Clinicopathologic Assessment** (*Bull Ophth Soc J, Egypt, 2005*).
- 19. Setting Target Pressure for Glaucoma: Is it as simple as it may seem?** (*Bull Ophth Soc J, Egypt, 2005*).
- 20. Cavernous hemangioma of the orbit** (*Saudi J Ophthalmol 2006*).
- 21. Bleb Failures Can Be Easily Handled If Caught Early** (*Bull Ophth Soc J, Egypt, 2006*).
- 22. Metastatic Neuroblastoma: A Real Therapeutic Challenge** (*Bull Ophth Soc J, Egypt, 2006*).
- 23. Orbital Rhabdomyosarcoma: The good, the bad, and the unusual** (*Bull Ophth Soc J, Egypt, 2006*).
- 24. Eosinophilic granuloma in One-year-old Boy: A case report** (*Saudi J Ophthalmol 2006*).
- 25. Crouzon's Syndrome: Variability in Clinical Severity** (*Bull Ophth Soc J, Egypt, 2006*).

- 26. Oculofacial birthmarks: Should Be Indicators of Ocular or Systemic malignancy?**  
(*Bull Ophth Soc J, Egypt, 2007*).
- 27. Recent Decreasing Frequency of enucleation for retinoblastoma in Upper Egypt.**  
*Saudi J Ophthalmol, 2007*).
- 28.. Recent trends in the management of retinoblastoma:** Senior supervisor on M.Sc. Thesis (2008)
- 29. Complications of LASIK: Prevention & management.** Senior supervisor on M.D. Thesis (2008).
- 30. Hospitalized Pediatric Ocular Trauma In Sohag University Hospital:** Senior supervisor on M.Sc. Thesis (2009).
- 31. Use of Autologous Serum and Platelet Rich Plasma in Treatment of Resistant corneal Ulcers:** Senior supervisor on M.D. Thesis (2010)
- 32.. A Comparative study of visual outcome between 20 and 25-gauge vitrectomies for treatment of epiretinal membranes:** Senior supervisor on M.D. Thesis. University of Tokushima Graduate School. Japan (2012).
- 33. Twenty five-gauge sutureless vitrectomy versus 20-gauge vitrectomy in epiretinal membrane surgery:** *The Journal of Medical Investigation, Vol.59, No. 1,2 Feb. 2012.*
- 34. Pattern of Eye Diseases Among Patients Attending Ophthalmology Outpatient Clinic In Sohag University Hospital:** Senior supervisor on M.Sc. Thesis (2014)
- 35. A Comparative study of visual outcome between Penetrating Keratoplasty And Femtosecond Keratoplasty:** Senior supervisor on M.D. Thesis (2017).
- 36. Changes in central macular thickness after uncomplicated phacoemulsification in diabetic versus non-diabetic patients by Optical Coherence Tomography (OCT):** Senior supervisor on M.Sc. Thesis (2018).
