Lectures & Handout *of*

Dr. Ahmad Mokhtar Abodahab

**Staff Member & Consultant of Radiology
Faculty of Medicine – Sohag University**

**1ST EDITION
2025**

A horizontal beam of light originates from the left edge of the frame, creating a bright, circular glow. The beam tapers as it extends to the right, where it illuminates the words "DARK ROOM" in a clean, white, sans-serif typeface. The letters are evenly spaced and appear to be floating within the beam. The background is a deep, uniform black, which makes the light beam and the text stand out prominently. The overall composition is minimalist and atmospheric, suggesting a dark, mysterious environment.
