

## **Veterinary epidemiology**

- 1- Epidemiology
- 2- Epizootiology
- 3- Population
- 4- Types of population
- 5- Describing disease occurrence in a population
- 6- Endemic disease
- 7- Epidemic
- 8- Pandemic
- 9- Sporadic disease
- 10- Exotic disease
- 11- Insidious disease
- 12- Outcome of exposure to infection
- 13- Measurement of disease occurrence in a population
- 14- Morbidity rate/ Attack rate
- 15- Mortality rate
- 16- Case fatality
- 17- Incidence
- 18- Cumulative incidence
- 19- Prevalence & its type
- 20- Epidemiological triad
