### **Academic Experience:**

Through my position as assistant lecturer in the ENT department – Assiut University, I was involved in the teaching process for undergraduate medical students; both academically and clinical rounds.

My career as associate professor and before that as lecturer (Assistant professor) and assistant lecturer, entailed involvement in both undergraduate and post graduate teaching and supervision of both MSc. and MD theses. I modified the ENT teaching programs for undergraduates using multimedia to facilitate understanding of the specialty.

Working as Assistant professor of Otolaryngology in King Faisal University; College of Medicine, Kingdom of Saudi Arabia added to my teaching experience being exposed to differed school of teaching. The Department of surgery; ENT section, King Faisal University; College of Medicine, Kingdom of Saudi Arabia was established since 2002. I work with one college so all the teaching duties including both undergraduate and postgraduate are divided in between us.

I was involved in teaching using problem based learning (PBL) for the fourth year students. Working as professor of Otolaryngology both in Assiut and Sohag universities involves both teaching (both under and post-graduate; with all their responsibilities) and managing patients in the related university hospitals

### **Western qualifications and experience:**

- I joined the ENT department at the North Riding Infirmary, Middlesbrough, Cleveland, England on September 1996 as Honourary registrar of otolaryngology and to do the thesis required for the MD degree under the supervision of Mr. Mr. Maurice Hawthorne Consultant ENT Surgeon North riding Infirmary. The title

of the thesis was “Clinical evaluation of a hybrid medical and information systems in the diagnosis of dizziness”.

- I joined the Overseas Doctors Training Scheme (ODTS) program organized by the Royal College of Surgeons of England. Through this program I joined the following posts (documents included).
- I joined a post as Senior House officer (SHO), ENT department, North Riding Infirmary, Middlesbrough. from Feb. 1997- Feb.1998.
- I passed the examination for the **Diploma of Laryngology and Otology (DLO)** in Royal College of Surgeons of England – London on September 1997 (documents included).
- I joined a post of Supernumerary registrar of otolaryngology, ENT department, North Riding Infirmary, Newport Road, Middlesbrough, TS1 5JE, UK. From Feb. 1998-Sept. 1998
- These posts were full duty jobs including causality sessions, outpatients departments, operations lists and on call rotas. I had a very good experience in dealing with British patients and medical system and diseases.
- During these two years 1996-1998 I finished my MD thesis.

### **Clinical Experience**

During my work in ENT Department- Assiut university hospital and ENT department, North Riding Infirmary I managed to get a lot of experience in all aspects of the ENT speciality including both medical, endoscopic and surgical fields with special interest in ear surgery.

We managed lately in Sohag University to develop Cochlear implant program

### **Special interest**

Through working in my MD thesis in the UK, in one of the most famous centers of managing dizzy patients, gave me a chance to develop special interest in the subspecialty of neurotology especially in the field of diagnosing and managing dizziness and vertigo. On returning back to Egypt, I managed to establish the first “Dizziness Clinic” in Upper Egypt. Considerable number of my publications discusses this problem.

### **Administration experience:**

- I was responsible for the administration work of the ENT and eye section in the College of Medicine, King Faisal University, Al-Hasaa (2007-2010). This includes establishing the ENT course, arranging the examination, correction of the papers and setting the marks for final results.
- I managed to establish an ENT simulation sector at the College of Medicine, King Faisal University, Al-Hasaa having ENT models, bronchoscope simulator, temporal bone surgery simulator and endoscopic sinus surgery simulator.
- I was member of the CME committee of the College of Medicine, King Faisal University, Al-Hasaa (2006-2010)
- I was a member in the academic committee of the College of Medicine, King Faisal University, Al-Hasaa (2006-2010)
- I shared in setting and establishing the CME activities in Al-Jabre Hospital of the eye and ENT- Al-Hasaa (2007-2010)
- I share by lectures in the CME activities in the College of Medicine, Al-Hasaa and Al-Jabre Hospital of the eye and ENT- Al-Hasaa (2006-2010)
